I Want You To Stay  
It's growing dark, it's getting late  
The lamp lights up your face  
It should be time for you to go  
I think I'll stay and sit awhile  
But how I want to hold you in my arms  
Won't you hold me, hold me in your arms now

### CHORUS

It may be wrong, or it may be right  
But oh, how I just want to hold you tonight  
It may last forever  
Or it may fade away  
All that I know is I want you to stay  
I see the lamp light up your face  
Yet somehow I can't meet your gaze  
Our shadows dancing in the night  
Flicker like memories  
And how I want to feel you in my arms  
Won't you hold me, hold me in your arms

### CHORUS

It's growing dark, it's getting late  
The lamp lights up your face  
On your lips whispers of a kiss  
In your eyes promises of tenderness  
And how I wanna feel you in my arms  
Won't you take me, embrace me, hold me in your arms
