### SOMETHING STRONG

Feeling tired when the long day's over  
Get back home and light a fire  
Sit and watch the red flames flicker  
You and I unwind together  
Share the secrets of our day  
Growing closer in every way

### CHORUS

Something old, something new  
Something borrowed and something blue  
Tie the Knot, forever true  
Something strong, that's me and you  
Bring good luck to see us through  
With something old and something new  
Grandma's ring of antique gold  
Brings precious love a century old  
In my hair I'll wear something new  
A snow white daisy wet with dew

### CHORUS

### BRIDGE

Something borrowed, must be time  
Time to live this life of mine  
No time to sit here feeling blue  
I'm gonna spend my life with you

### CHORUS

### CODA

Feel the bonds between us two  
Something strong, something strong, something  
strong  
That's me and you
