What Are You Gonna Do?

Ruby Paul Original

Refrain

What are you gonna do

Now that your baby's gone ?

What are you gonna say

Now that she's gone away?

Look out the window, what do I see

Mulberry bush turned into a tree

There in our yard

Come rain or shine

You promised me

That you would always be mine

Refrain

What are you gonna do

Now that your baby's gone ?

What are you gonna say

Now that she's gone away

So many years have come and gone

And we just let things drift along

I never hoped for something new

Always making do with a worn out shoe

Baby I've just gotta tell you

I don't know when , I don't know how

Baby I've just gotta tell you

The reason why, we'll say goodbye

Refrain

What are you gonna do

Now that your baby's gone ?

What are you gonna say

Now that she's gone away
