Now that you've gone
the bright of your eyes
won't delight me

We played a game
love is the name
and we both lost

Now that you've gone
I drown into my tears
and I can stay
without you

Chorus

You took my love
away from pain
You came as an angel
to my grave
You took all
my misery to hell
Beyond mortem you
brought me to life

Solo

Don't let me die
please get me out of
this pain
Save me tonight
I want to kiss you again

You took my love
away from pain
You came as an angel
to my grave
You took all
my misery to hell
Beyond mortem you
brought me to life
