Look The Witch in The Eyes or You'll never know  
There's a banging at my door now Feel the Terror grow  
Look The Wolf in The Eyes because You've always  
known  
There's a taste of Blood in here now Take The Curse  
I've sown

Now Bring the Fire to me  
And live The Prophecy  
Proceed with No Will  
Bring The Fire

We've got a name for you  
Mark Your Grave

Look The Witch in The Eyes or You'll never know  
There's a banging at my door now Feel the Horror Show  
Look The Wolf in The Eyes because You've always  
known  
There's a taste of Blood in here now Take The Curse  
I've sown

Now Bring the Fire to me  
And live The Prophecy  
Now Bring the Fire to me  
Smash The Chalice

Now Bring the Fire to me  
We've got a name for you

I - I am Pure Nothing but Truth  
Transfusing of Blood and Mind  
The Ritual began a lifetime ago  
Engulf me in Oceans of Crimson  
Unleash The Daggers of Hate  
Draw blades and Instigate to  
Some one to love  
Some soul to Sacrifice  
Open your Heart
