

MoZella "Freezing"

Visit "[Freezing](#)" on MotoLyrics.com

The clouds in the sky have covered up my life
And the day just as gray till it's night
And the darkness outside is the mirror to my eyes
Cause my soul won't reflect any light
Ooo, I can't lie I'm so lonely
Ooo, make it right and just hold me

Chorus

Cause I'm freezing there's no way to stay warm
Don't you need me left me out in the storm
How could you forget me, my sunshine has left me
alone
You're so cold
Freezing like when rain turns to snow
Don't you need me like an old overcoat?
The seasons may change but the ice still remains in my
soul
You're so cold

The chills down my spine are just memories of a time
Now I'm haunted cause I thought you were mine
I just can't get away I've been frozen in one place
And I'm not moving on tell me why
I still love you boy
Ooo, I can't lie I'm so lonely
Ooo, make it right and just hold me

Chorus

Cause I'm freezing there's no way to stay warm
Don't you need me left me out in the storm
How could you forget me, my sunshine has left me
alone
You're so cold
Freezing like when rain turns to snow
Don't you need me like an old overcoat?
The seasons may change but the ice still remains in my
soul
You're so cold
