VERSE

Pull me apart then wrangle me to the ground
Till there's nothing left
Bouncing off the walls,
The memory of her falls down hopes well

PRE-CHORUS

Ultra violet scars of love's burn
Remnants, odds and ends, lessons to be learned

CHORUS

Disintegration, my soul floats lost at sea
The world as I knew it, won't remember me

VERSE

The pressure's building up,
The overflowing cup begins to boil
It seems that nothing's making sense,
the atmosphere is tense, watch it pass

CHORUS
