Verse 1

My sails are filled muscles flexed
Can't stop my bullet while you're undressed
My lightning strikes I leave you burnin'
You're an open target there's no turnin' back

Chorus

You're caught off guard can barely tread
Here I come babe
Full Speed Ahead

Verse 2

You're mind is spinnin' faster than a top,
The tornado lifts, I make you drop, yeah

Chorus

I feel you drag those feet of lead, no stoppin' me
Full speed ahead

Solo

Bridge

Now we're down and satiated, lost in love inebriated
The spotless mind floats weightless, weightless
Take it easy girl the calm before the storm
You're cumming back for more

Chorus

Full Speed Ahead
