Verse 1

He said she said black white wrong right is all I ever
hear
Backstabber, trash talker, Run away from my stalker,
Non-confronting fear

Pre Chorus

Are we all children in a schoolyard?
Are we mere swine feeding in the barnyard? (repeat)

Chorus

Thirst for gossip, IÂ'll share in a drink
The rugs been pulled out from under, sheÂ's going to
sink

Verse 2

Mental breakdown, a new apartment uptown,
LifeÂ's becoming clear
Is this what you crave? Living for the next wave
Consider your bleak career

Pre Chorus

Chorus

Bridge

DonÂ't look down
He said ThereÂ's still room for dessert,
She said the deceit is what hurts
He Said She Said He Said She Said He Said She Said
