I've been waiting a long time  
For someone to rephrase their lines  
One to stand in front of me and ask me  
To be kind, to be kind  
If I hurt you, I have got to say I'm standing in line  
just to save you from the  
Fire too  
And I say that we're all guilty of something in this world  
and we can't go  
Back in time just to fix it, what a crime  
If I hurt you, I have got to say I'm rescuing you from the  
fire too because  
I'm Fire Proof  
Let's just say that we all let

Let the burning stick burn the world  
Burn the world and all the people that  
Reside on the shores, reside on the shores  
12 years to build, minutes to crumble  
2 months to fix one moment to fall apart  
5 years to pay one crash to crush a soul  
One life to live so don't mess it up, no  
If I hurt you, I have got to say I'm  
Rescuing you from the fire too because I'm Fire Proof  
ah  
One life to live so don't mess it up...
