Love doesn't just come along  
Sometimes you have to give and give to take  
But see when you can't understand  
And we can't figure out what kind of person you are  
And she will not turn attention  
And he won't admit that he is just as scared as her  
I know one day the time will come  
That we will all get out of shallow hearts  
All I want is to talk to you

And I just want to see you oh  
'Cause I'm lost!  
Yea I'm lost!  
And I'm scared I need someone to feel  
I just want comfort and someone to hold onto  
All I want is to talk to you  
Yea and I just want to see you oh  
'Cause I'm Lost!  
Yea I'm Lost!  
'Cause I'm lost!  
Yes I'm lost!
