I feel bad, I feel low
I feel sad, I know, I have to go
When I die, you don't have to cry
I will fall asleep, I fall into deep

CHORUS

I am dying, this world has for me no crying
This pain I am going through
The only one thing I will do is
Forever flying, forever flying

You shall live, I will not aggrieve
I will go, you don't ever have to know
Where I am going to, my love it's you

CHORUS

I am dying, this world has for me no crying
This pain I am going through
The only one thing I will do is
Forever flying, forever flying

BRIDGE

Don't need your tears, be strong
I am going home, where I belong
Something you've never known
I was your garden angel, all time long

CHORUS

I am dying, this world has for me no crying
This pain I am going through
The only one thing I will do is
Forever flying, forever flying

I will remember you till the end of time
Even if you were never mine
I will ever think of you, but how?
My mission on earth is over now
