Lets just be friends  
It will never work out in the end  
Why can't you see?  
You're madly in love with me  
Why cant we make ends meet  
Pretty soon we will live on the street  
And know one wants that  
I just want a house with a welcome mat  
And u to be my bride  
And always be by my side  
Why do you always have to hide?  
You and I were just friends  
But not until the end...the end.... but not until the end  
So I guess, we will just walk hand in hand, but without a  
wedding band  
Not a kiss but a hug  
My expressions not a smile but a shrug  
If you don't like me then go munch a rug  
Now I could care less  
You look like a mess  
And there's a new girl in my life  
Who makes me feel right  
So I'm happy you're just my friend  
right until the end.
