"Inner City Cruise"

Ah, ha, do the inner city hustle
A bad break all of that noise and bustle
I need a space, a highway right to where you're going
The main line, just down the track where life is growing

Hold tight, we'll blow away the blues
Come on board, what you got to lose
No time to waste, forget about the rules
Come on with me on an inner city cruise
Ah, ha

There's a place where mind and nature join together
Where beauty wakes and shelters us from stormy
weather
You'll find no war, a paradise, a state of mind
Come cruise with us happiness is what you'll find

Hold tight, we'll blow away the blues
Come on board, what you got to lose
No time to waste, forget about the rules
Come on with me on an inner city cruise
Ah, ha, wha, ho

Hold tight, we'll blow away the blues
Come on board, what you got to lose
(What you got to lose)
No time to waste, forget about the rules
Come on with me on an inner city cruise
Ah, ha

Hold tight, we'll blow away the blues
(We'll blow away the blues)
Come on board, what you got to lose
(What you got to lose)
No time to waste, forget about the rules
Come on with me on an inner city cruise
Ah, ha
