It's called dull life  
And it's showin' at a town near you  
Mmm, it's called real life  
Believe me every word I say is true

Life's not cheap you know so priceless next to death  
Live it while you can, live it every breath  
Straight lines, black or white, a silent exhibition  
You don't have to be a prisoner of your own ambition

Melody of life  
We've got a melody of life

We are children of life  
In a reservoir of dreams  
Mmm, we are countin' on the night  
When nothin' is quite what it seems

They'll inspire your arrogance with a lack of thought  
Wielding power is a trick so easy to be bought  
Nothin' is too far away, nothing's out of reach  
Look the world straight in the eyes, stand on your own feet

Melody of life, symphony of love  
We've got a melody of life, symphony of love

High life and low life and their life and your life  
High life and low life and their life and your life

Melody of life, symphony of love  
We've got a melody of life, symphony of love

Melody of life, symphony of love  
Melody of life, symphony of love
