Gut

Die muthafucker

Gonna die muthafucker

So all I got left

Lost my pen lost my fist All I got left is this

The sickness inside the burning inside And it all comes  
down to this

Someone look what we've done We all belong to this

Die muthafucker Die muthafucker Die muthafucker  
fucker Die

Fuck what the fuck is going on in here?

Yea

Burning inside the sickness inside Burning burning All I  
got left is this fist

You are not what I want to be You are not what I've got  
to be

Someone look what we've done We all belong to this

Die muthafucker Die muthafucker Die muthafucker  
fucker Die
