"My Angel In The Snow"

1. The snow is coming down,
Falling from the sky.
And when I look around,
There's only you and I.
Lost in this world with no place we can go,
Me and my angel in the snow.

2. Oh little one of mine,
Nothing's what it seems.
But for a moments time,
We can live our dreams.
Lost in this world with no place we can go,
Me and my angel in the snow.

3. The snow did melt away,
Leaving memories.
I think about that day,
And close my eyes to see.
Lost in this world with no place we can go,
Me and my angel in the snow.
