To your brother, to your sister, to your misses, to your mister.

To your friends, to your foes, give the love around and back around it goes.

It all comes from the top and it spreads right round  
Treat a man wrong he's gonna pass it on down  
To the next in line, who's probably his wife bringing up his kids  
Now watchin' mamma cry  
And they pick it up, cause they learn everything  
Life has a funny way of going in a ring,  
End up growing up in trouble with the law  
Standing in the cuffs that the father once wore

Now it seems that every brand new generation  
Have all been growing up with cracks in the foundation  
Their trying to fill the holes of a whole damn nation  
Thats lost its trust (that's lost its trust)  
We gotta change before the train leaves the station  
and realize the revolution in a revelation  
it takes blood, sweat, tears, innovation  
It starts with us, it starts with us.

(Chorus)

Yeah, starts by givin' love to your brother,  
Givin' love to your sister,  
Givin' love to your misses,  
Love to your mister  
Givin' love to your friends,  
Love to your foes,  
Give the love around and back around it goes (X2)

Round it goes, round it goes,  
round it goes goes goes

Give the love around and back around it goes

Oh we're all just folks working in a wheel  
Spinning all around life's cruel battlefield  
Draw circles in the sand on a rainy day,  
Watch it wash away

I bet it shows up on a sunny beach a thousand miles  
away  
Flutter from a butterfly forms a storm  
Over half a million people die  
Oh we don't care because we're all desensitized  
We don't realize we're putting all this shit before our  
children's eyes

Now every brand new generation  
Have all been growing up with cracks in their  
foundation  
We're tryna fill a holes of a whole damn nation  
That's lost it's trust (that lost it's trust)  
We gotta change before the train leaves the station  
And realize the revolution in a revelation  
It takes blood, sweat, tears, innovation  
It starts with us, it starts with us.

(Chorus)

Give the love around and back around it goes (around  
it goes)  
Give the love around and back around it goes (around  
it goes)

Love to your friends (around it goes)  
To your folks (around it goes)  
Give the love around, back around it goes

See the thing about Karma is she loves a bit of drama,  
yeah  
Loves to hunt you down and pay ya back for the things  
you did  
Before you turn a positive to a negative  
Better pray before you know exactly who the fuck  
you're dealing with  
This is not a dance rehearsal, let me tell you kid  
Whatever you put out there is coming back again  
Years may burn (ohh)  
Tables gonna turn  
Karma's coming back around  
Either way you're gonna learn  
To give love to your neighbour, love to yourself  
It don't matter bout your status  
Man your health is your wealth  
We can all point a finger but there's four pointing back  
at yourself  
I'll be the bigger man now  
Give a little help

(Chorus)

Give the love around back around it goes  
Around it goes (x2)  
Give the love around back around it goes  
Around it goes (x4)  
Give the love around back around it goes
