Neither one of us is getting out of here alive,
Both of us are sprinting and we won't make it back in
time,
The whole world is blowing away, we just watch it pass
us by,
Yeah, swept up off our feet when we meet in the
northern sky,
Like thunder and lightning, go in the one
Together we make the perfect storm
You're like the wind, I'm like the rain,
Together we both play hurricanes, (hurricanes x4)
Heading t'wards each other at a hundred-fifty miles an
hour,
Knocking us off course, with the force, once you feel
the power,
We're tryna get away, tryna clear the path,
From everything we buried in the aftermath
Swell like a supercell, raging getting louder and louder.
Like thunder and lightning, go in the one
Together we make the perfect storm
You're like the wind, I'm like the rain,
Together we both play hurricanes, (hurricanes x4)
On my own, just another cold, rainy day,
before the winter comes along and take me away
She's just a breeze on a sunny day
but it's the two of us together and we're blown away
Like thunder and lightning, go in the one
Together we make the perfect storm
You're like the wind, I'm like the rain,
Together we both play hurricanes, (hurricanes x4)
