We used to go together
Looking after each other
I thought that you were better,
Look at you

You used to be so layed back
You always kept it so cool
I loved you cos of all that, that's the truth

I don't think you know where your heading
Cos I was always there to help you break the fall

(Chorus)

And now you wanna pretend that you a superstar,
And now you wanna us to end what's takin you this far
Don't tell me that your done as far as we go,
You need to have a sit down with your ego

When everyone's gone and you all by yourself,
You know that you gonna come to me for help
Don't tell me that it's time for going solo
You need to knock some sense into your ego

(Ego x4)

(Verse)

You act like you on fire
Livin your delusion
You just need you to take you higher
Off you go

You can make the call
When your ready
I will not be there to help you break the fall

(Chorus)

And now you wanna pretend that you a superstar,
And now you wanna us to end what's takin you this far
Don't tell me that your done as far as we go,
You need to have a sit down with your ego

When everyone's gone and you all by yourself,

You know that you gonna come to me for help
Don't tell me that it's time for going solo
You need to knock some sense into your ego

(Verse)

And when it's time for you to come back down to
Where you started but we parted
I think you find it in it's very hard to face
Reality is just simple babe

(Chorus)

And now you wanna pretend that you a superstar,
And now you wanna us to end what's takin you this far
Don't tell me that your done as far as we go,
You need to have a sit down with your ego

When everyone's gone and you all by yourself
You know that you gonna come to me for help
Don't tell me that it's time for going solo
You need to knock some sense into your ego
