Go go go
It's time to make a move and we both know
It's time to step it up a notch
I'm ready to loose touch
Baby boy
Go go go

This is the crossing at the main intersection
Up is where we go from here
Finest selection
This could take us anywhere
I don't want protection
Life is better off the line (ine ine)

I'm ready for the lift up
Keep steady beat
'Cos I'm ready for the big jump
Keep up with me
If you lose me then you know
you're just a bit too slow
I only go up up
I'm ready to be in control and the ground isn't good
enough for me
I know where to find what I want
I'm gonna keep on
Keep on up up

No turns now
We're going straight
You better hold on tight
'Cos if you fall you're on your own
'Cos I'm gonna go on
No no no turns now

This is the final call for all destinations
This is where you're in or out
No hesitation, this is not the time for doubts
Make your decision
Are you on or off the line (ine ine)

I'm ready for the lift up
keep steady beat

'Cos I'm ready for the big jump (Big Jump)
keep up with me
If you lose me then you know
you're just a bit too slow (too slow)
I only go up up (oooooh ooh)
I'm ready to be in control and the ground isn't
good enough for me (I know)
I know where to find what I want
I'm gonna keep on
Keep on up up
