"Get With You"

Yeah alright now
Yeah come on let me get with you

Girl all them other boys wont do a thing like me
I can hold it down better and you'll see
That ima treat you better then them other boys would
And ima take you places that no other boy could

Yeah

I kinda like how you move it girl
So come on move it next to me if you want to
And when you shaking it you rock my world
I got my eye on you

So if you let me get with you
Anything you want to
Ima put it on you
Get with you
Girl I got you if you got me

Well when I showed up you were all I see
Yeah dancing on the table of the v I p
I told myself that I was gonna get you shortie
Anything you got
Come on and lay it on me

I kinda like how you move it girl
So come on move it next to me if you want to
And when you shaking it you rock my world
I got my eye on you

So come on let me get with you
Anything you want to
Ima put it on you
Get with you
Girl I got you if you got me

So come on let me get with you
Anything you want to

Ima put it on you
Get with you
Girl I got you if you got me

Yo ima get you girl
Go head and get you girl
You got me swinging for the fences I aint miss it girl
Now lets get physical
Make it official woah
Year round mistle toe
You know Ill be kissin yo
And when the sun is gone
We can get it on
Make a player transform like a mega tron
So cancel all your plans
Ill be the camera man
You can be a movie star
And I will be your biggest fan

I know ive only just met you girl
But I know that I can see myself beside you
Cause when you shaking it you rock my world
And now I gotta make it real with you baby

So if you let me get with you
Anything you want to
Ima put it on you
Get with you
Girl I got you if you got me

So come on let me get with you
Anything you want to
Ima put it on you
Get with you
Yeah I got you if you got me

Yeah yeah
Oh
Yeah come on let me get with you
Alright
