"Heart Beating Baby"

Visit "[Heart Beating Baby](#)" on MotoLyrics.com

I will never let you go
Every moment that I know
You are with me, I'll be safe

Should I fall, I want to know
That I fall with you back home
Say you'll wait for me in song

Come on

Well I'm feeling much better and its only you
I won't say goodbye until you love me too
I need you, because you're the only thing I know

We could sit around baby, or we could see the world
So take my hand and say you'll be my girl
I'll lead you into wherever I may go

And is your heart beating baby?
Don't tell me maybe
I'm gonna make sure you wanna see this through
You gotta let me know

And with your heart beat faster?
There's no more disaster
And when I see your eyes,
I know that I am making this for sure

And are you ready to open up for me
'Cause all you are is all you need, you'll see
I'll be there, unlike all the ones before

I'll be beside you, honey, for all the rides
I'm singing all these songs coming from inside
Like a sunlight sent to make a heart beat grow

And is your heart beating baby?
Don't tell me maybe
I'm gonna make sure you wanna see this through
You gotta let me know

And with your heart beat faster?

There's no more disaster
And when I see your eyes,
I know that I am making this for sure

Come on, come on, come on, come on
Come on, come on, come on, come on
Come on, come on, come on, come on
Now lets go

Come on, come on, come on, come on
Come on, come on, come on, come on
Come on, come on, come on, come on
Now lets go

And is your heart beating baby?
Don't tell me maybe
I'm gonna make sure you wanna see this through
You gotta let me know

And with your heart beat faster?
There's no more disaster
And when I see your eyes,
I know that I am making this for sure
