Baby we had it
Now it's over
I was an addict
To your love

Something inside you
It took over
'Till I couldn't find you
Had enough

(Oooooooooo)

This is not a love song

(Ooooooooooooo)

This is an out of love song

I was there
To hold you up
Hold you up
And...

I was there
To see it through
See it through...

And all the pieces seemed to be there for us both
But everything all just came crashing down.

(Ooooooooooooo)

You were there to say goodbye
Say goodbye
And

You were there to let me go

And nothing else can change the way you feel About
me now...

But everything is crashing down

Baby we had it
Now it's over
I was an addict
To your love

Something inside you
It took over
'Till I couldn't find you
Had enough

(Oooooooooo)

This is not a love song

(Oooooooooo)

This is an out of love song

And you were there
I felt alive
Felt alive
And...

When you were there
You were mine
All mine...

I just don't know
How what you feel
Can change from here to there

'Cuz I still feel the same way...
Same way...

Baby we had it
Now it's over
I was an addict
To your love

Something inside you
It took over
'Till I couldn't find you
Had enough

(Oooooooooo)

This is not a love song

(Ooooooo)

This is an out of love song

I know you gotta go
But I wanna let ya know now
Gotta let ya know now

I know you gotta go
But I gotta let you go now
Gotta let ya go now

(Oooooooooo)

I gotta let ya go now...

(ooooooooo)

I gotta let ya go now!

Baby we had it
Now it's over
I was an addict
To your love

Something inside you
It took over
'Till I couldn't find you
Had enough

(Oooooooooo)

This is not a love song

(Oooooooooo)

This is an out of love song
