"Throw Your Hands Up"

Visit "[Throw Your Hands Up](#)" on MotoLyrics.com

If you're feeling my song all night long
Throw your hands up and you can't go wrong
What do you say, rocking with me,
Throw your hands up and we're here to stay

If you're feeling my song all night long
Throw your hands up and you can't go wrong
What do you say, rocking with me,
Throw your hands up and we're here to stay

We started up front, and then we moved back,
Shorty got style, and shorty got class
You wanna get down? Then baby now
You don't gotta worry 'bout it now

All we gonna do is listen to the beat,
If it's right with you
You're getting me high when you get so low
Now shorty, you don't gotta worry 'bout it
(You don't gotta worry 'bout it)

If you're feeling my song all night long
Throw your hands up and you can't go wrong
What do you say, rocking with me,
Throw your hands up and we're here to stay

If you're feeling my song all night long
Throw your hands up and you can't go wrong
What do you say, rocking with me,
Throw your hands up and we're here to stay

We started up front and then we moved back,
Shorty got style, and shorty got class
You wanna get down?
Then baby now you don't gotta worry 'bout it now

All we gonna do is listen to the beat,
If it's right with you
You're getting me high when you get so low
Now baby, you don't gotta worry 'bout it

If you're feeling my song all night long
Throw your hands up and you can't go wrong
What do you say, rocking with me,
Throw your hands up and we're here to stay

If you're feeling my song all night long
Throw your hands up and you can't go wrong
What do you say, rocking with me,
Throw your hands up and we're here to stay

Throw your hands up, come on throw your hands up
Throw your hands up, come on throw your hands up
Throw your hands up, come on throw your hands up
Throw your hands up, come on throw your hands up

Throw your hands up, come on throw your hands up
Throw your hands up, come on throw your hands up
Throw your hands up, come on throw your hands up
Throw your hands up now

If you're feeling my song all night long
Throw your hands up and you can't go wrong
What do you say, rocking with me,
Throw your hands up and we're here to stay

If you're feeling my song all night long
Throw your hands up and you can't go wrong
What do you say, rocking with me,
Throw your hands up and we're here to stay

If you're feeling my song all night long
Throw your hands up and you can't go wrong
What do you say, rocking with me,
Throw your hands up and we're here to stay

If you're feeling my song all night long
Throw your hands up and you can't go wrong
What do you say, rocking with me,
Throw your hands up and we're here to stay
