(feat. Loren)

Still missin you (baby)
Still missin you
(thats right gurl
Its mr capone e
Still missin you girl
All day come on)

Remember 14 back in junior high when in times take
Winnin off your mind me and u lady on this journey
Of love like poetry emotion standin u above
Concentrating on eachother makin it work
U hung out wit me and my homies always putting in
work
I trusted you like you were the key to my heart and u
had my back
Even when i stayed out after dark sparks flue when
your father
Seen us kick it you were in love wit a gangster well your
jefa
Couldnt except it and i respected but we still made time
And after all these years cant forget about your brown
eyes
Pretty women lookin more bonita sexy seniorita your my
cholita
I still wannabe still wanna spend some time still give it
up
Still make you mine

[Chorus:]

Even after all this time
Oh im still missin you
Tryin to get u off my mind
Wit someone else
But everyday i remember the things
We use to do
In every way im still missin you

Always use to wonder why u called me whisper but then
i told you to come
Out but you seem not to miss me is it because i was a

gangster wit no bishes
Or did you think i would start end up in prison heres 13
question i ask
Myself like why you disappear and why you left back in
the days you
Stud by me in any weather why i was behind bars you
wrote back to my letters
14 like bony and clyde we went good together like
apple pie but things change
After high skool graduation u got exceted to college
and i was out of probation
I called you up and told u lets kick it but u acted like you
were not intested
Situation change but im still here dont fight the fear
dont be hurt dont be scared

Even after all this time
Oh im still missin you
Tryin to get u off my mind
Wit someone else
But everyday i remember the things
We use to do
In every way im still missin you
I dunno what to do
You got me missin you
I dunno what to do
Ohoh my baby
You got me missin you
I dunno what to do
You got me missin you
I dunno what to do
You got me missin you
I dunno what to do
You got me missin you
I dunno what to do
You got me missin you
I dunno what to do
You got me missin you
I miss you baby
I miss you baby
Yea oohoh eyea
I missin you my baby boo
Ohoh i miss u
I missin you
I missin you baby yea
