Ready?
Aha!
Aim... Fire!

I've been to paris, london, spain
I went down all the coast of maine
I swear I never met a girl like you
And I said
Girl I know that you're the one
I fall for you, so said and done
And I had heaven in my car

Blinded by the light
I took her for a ride and
We we're driving down the road

And she said:

Boy your know to make things true
There is a price for loving you
If you want dreams I tell you mine
Give me your cash if you want my time

Bang Bang what can I do
Don't shoot me down for loving you
I just can't help the way I feel
Bang Bang what can I do
Don't shoot me down for loving you
Girl Don't you know that it's for real

The next morning there was trouble
And that girl had made it double
Coz she left me
And my wallet went with her
I was broken, I was stranded
And the love affair had ended
She made a fool of me
And all my dreams

Blinded by the light
I took her for a ride and

We we're driving down the road
(2x)

And she said:

Boy your know to make things true
There is a price for loving you
If you want dreams I tell you mine
Give me your cash if you want my time

Bang Bang what can I do
Don't shoot me down for loving you
I just can't help the way I feel
Bang Bang what can I do
Don't shoot me down for loving you
Girl Don't you know that it's for real

Ready?
Aha!
Aim Fire!

Bang Bang what can I do
Don't shoot me down for loving you
I just can't help the way I feel
Bang Bang what can I do
Don't shoot me down for loving you
Girl Don't you know that it's for real
(3x)
