One thing I have learned out on that highway
In every town there's a friends I'm bound to see
We went down to Tuscan, Arizona
(That's Right)
And there he was just waiting 'round for me

Thank you Lord, for Jack Daniels
Thank you Lord for saving me
Only thing that keeps me from the devil
Is another bottle of that good old Tennessee

Barkeep won't you pour me a stiff one
'Cause me and the boys are gonna get fucked up
tonight
You keep 'em coming
My towns a' running'
We ain't got nothing better to do
Just to look at the girls having on the train with you

Thank you Lord for Jack Daniels
Thank you Lord for saving me
Only thing that keeps me from the devil
Is another bottle of that good old Tennessee

Cut me off if you think I've had too many
They're going down just way too easily
It's been a long time since I've seen the face of Jesus
But tonight I see him standing right here with me

Thank you lord for Jack Daniels
Thank you Lord for saving me
Only thing that keeps me from the devil
Is another bottle of that good old Tennessee

Thank you lord for Jack Daniels
Thank you lord for saving me
The only thing that's better than Jack Daniels

Is drinking my Jack Daniels for free
