I'm amazed in a way that we've got this far
At the pace we're going you'd think we're gone
Amazed in a way that we're all still here
Just look at our last fifty years

And our test in the west in the years to come
Does the dollar really matter when the whole world's
gone
Worry about yourself while the world stills turns
But wait until we watching it burn

Oh yeah
Stuck in a revolving door
And calling our peace for sure
Just look into your eyes
Now do we have the strength to survive

Stuck in a revolving door
And calling our peace for sure
Just look into your eyes
Now do we have the strength to survive it vive it yeah

It's not like cigarettes not like your tv
It's bigger and broader than any other thing
Just consume less and give him back more
And leave your old ways at the door

And our way if we don't you can kiss it goodbye
Our sun our moon our earth and our sky
Our world will recover in a billion years
But f*** it if we not even here

When we are
Stuck in a revolving door
And calling our peace for sure
Just look into your eyes
Now do we have the strength to survive

When we are
Stuck in a revolving door
And calling our peace for sure
Just look into your eyes

Now do we have the strength to survive

C'mon

Do we have the strength to survive

C'mon

Do we have the strength to survive

C'mon

Do we have the strength to, we have the strength to

Do we have the strength to survive

When we are

Stuck in a revolving door

And caught up to some peace for sure

Just look into your eyes

Do we have the strength to survive
