I wish somebody told me I would light up  
And in a second I would turn to ash  
I wish somebody told me I would tear up  
Always be out there lookin' for my other half  
That I had a paper heart  
That I had a paper heart

I wish somebody told me I would roll up  
Into a little ball that you could throw away  
If I woulda known I woulda folded up  
Into a 747 airplane  
Cause I've got a paper heart

Shoulda paid attention to the state of my condition  
Before I kissed you that way, I shoulda listened  
Thought I was a rockin' stone, standin' my ground all  
on my own  
But I was blown away  
Cause I've got a paper heart

Oh, I woulda never looked at you if I only if I knew  
Never woulda kissed you that way, I shoulda listened  
Thought that I was strong enough, knew all there was  
to know about love  
But I was blown away  
Cause I've got a paper heart

I wish somebody told me I would light up  
And in a second I would turn to ash  
I've got a paper heart  
I've got a paper heart  
That I had a paper heart  
I've got a paper heart  
I wish somebody told me, someone shoulda told me  
I've got a paper heart  
That I had a paper heart  
I wish somebody told me, someone shoulda told me  
I've got a paper heart
