

## Simon Carly

### "Never Been Gone"

Visit "[Never Been Gone](#)" on [MotoLyrics.com](https://MotoLyrics.com)

The wind is coming up strong and fast  
And the moon is smiling on me  
Miles from nowhere so small at last  
In between the sky and the sea  
I'm bound for the island  
The tide is with me  
I think I can make it by daw

It's night on the ocean  
I'm going home  
And it feels like I've never  
I've never been gone

Seagulls cry and the hills are green  
And my friends are waiting for me  
Great ambitions is all a dream  
Let me drown my pride to the sea  
I'm bound for the island  
The tide is with me  
I think I can make it by dawn

It's night on the ocean  
I'm going home  
And it feels like I've never  
I've never been gone
