I was waiting up alone tryna add it up
What coulda gone wrong
Wish I had a clue, but I don't, I just don't
I just don't

Cause the candles almost burnt at the end
I'm left sitting in the dark again
But something else burnt out
And I don't need a pretend
That this fires gona keep burnin, burning, no

Sometimes we role the dice
And it don't really matter if it's wrong or right, no
But it's all just apart of life
You know I do what I do to survive

And it's over (it's over), it's over (it's over)
It's over (it's over)
This heartbreak is giving me closure (me closure)
Me closure (me closure) me closure (me closure)
I really hate to say that it's over
Ooooh oh-oh ooooh ooow
And its giving me closure
Ooooh oh-oh ooooh ooow

So were going our separate ways
No I won't make the same mistake
You don't have to worry bout valentines day
My birthday or our anniversary

So I'm driving down the road, all alone
And I turn on the radio
It is playing our song
It went just like me and you
We had a start, and a middle, and an end

Sometimes we role the dice
And it don't really matter if it's wrong or right, no
But it's all just apart of life
You know I do what I do to survive

And it's over (it's over), it's over (it's over)

It's over (it's over)
This heartbreak is giving me closure (me closure)
Me closure (me closure) me closure (me closure)
I really hate to say that it's over (it's over)

it's over (it's over) It's over (it's over) It's over (it's over)
This heartbreak is giving me closure (me closure)
Me closure (me closure) me closure (me closure)
I really hate to say that it's over
Ooooh oh-oh ooh ooow
And it's giving me closure
Ooooh oh-oh ooh ooow
And I really hate to say that it's over
ooooh

Oh, There's really nothing we can do oh,
I'm beautiful without you
Let it go, let it go, you know
Let it go, baby it's over
You know we do what we do to survive,
Do to survive

And it's over (it's over), it's over (it's over)
It's over (it's over)
This heartbreak is giving me closure (me closure)
Me closure (me closure) me closure (me closure)
I really hate to say that it's over (it's over)
it's over (it's over) It's over (it's over) It's over (it's over)
This heartbreak is giving me closure (me closure)
Me closure (me closure) me closure (me closure)
I really hate to say that it's over
Ooooh oh-oh ooh ooow
And it's giving me closure
Ooooh oh-oh ooh ooow
And I really hate to say that it's over
ooooh
