# "Wake The Nations"

I'd almost fallen asleep  
Didn't notice the darkness falling  
To kill and destroy

Now I'm wakin' up  
Not gonna sleep forever  
They can't overtake me

Fire fallin' down I'll wake the nations  
Feet don't fail me now I'll go when You say go

I tried to wake you up  
You're sleeping thru the screaming  
It's piercing the night  
My heart is broken tonight  
Don't ya know I'm burnin' inside  
It's time to answer the call

Back down wake the crowd up now  
Back down wake the crowd

Fire falling down  
Fire falling down
