I feel the love coming over you,
it gets inside your head then you know,
and then then you know
i feel the power coming over you
it gets inside your head then you know,
and then then you know
peaking around the corner and I know nobody's
watching
I can see I'm all alone, I'm all alone, I'm all alone
I'm working on the night shift, smoke another
a marijuana cigarette, I've got my girl on the phone, I'm
all alone
I turn on the radio, I'm listening to the night show
they are playing my favorite song so i turn it up, and I
sing along
I look at my watch I'm almost off it's almost 3:15
I can't believe what a wonderful night it has turned out
to be
CHORUS: I've been living it up, and living it out, it's the
way I live my
life
sit back an relax and love and make yourself feel right
Livin' it oh livin' it oh livin' it
I get home real late
i see no ones awoken
and i know i am alone, its all i know, its all i know
my girl is asleep, dreaming her dreams, and smiling at
me
so happy i'm home, it's all i know
i walk in to my studio, step up to the micropophone
and start to write this song. i just let it out, the words
come along.
I got thoughts in my head, my baby's in bed, and music
is there for
me,
I just want to write what a beautiful night it has turned
out to be.
I've been living it up, and living it out, it's the way I live
my life
sit back an relax and love and make yourself feel right
every-time i hear your voice, it puts a smile upon my
face

i've got to carry on, ive got to get back to that place
and every-time i hear that song, it brings this feeling
deep inside
i never had no choice, you are the one that i was
suppose to find
livin' it, what a wonderful night
oh i've been killing, what a beautiful life
I'm loving you, with this feeling inside
and now I'm singing songs
livin' it, wonderful night
oh i've been killing it, beautiful life
I have been loving you, all night long
and i'm still singing songs
uh oh, oh baby
let me love you
through the night and day
said oh, oh your crazy
don't blame me
just let that music play
let me, come on little baby let it set you free
come on let it hit your brain
with a little bit of love
and when there is nothing left
time to get it off of your chest
you'll feel no pain
let the music play
