stick together

i know what i'm facing and what i'm facing don't know
me
and i'll wait and i'll tell you once again
if you only gave the guidelines, i'd be better off
knowing when
i'd be better off knowing when

burning the candel is all i can handle
we'll save energy if we stick together
taking you over a shy casnova
we'll save energy if we stick together now stick
together now

i've seen what i'm doing and what i'm doing is the best
for me
and it's all gotta go before we're done
it's the only kind of opinion that i could give to anyone
i could give to anyone

burning the candel is all i can handle
we'll save energy if we stick together
taking you over a shy casnova
we'll save energy if we stick together

burning the candel is all i can handle
we'll save energy if we stick together
taking you over a shy casnova
we'll save energy if we stick together
now stick together now

know what your comming for
no need to tell you no more
a little bit in store keeps us gussing

know what your comming for
no need to tell you no more
a little bit in store keeps us gussing

burning the candel is all i can handle
we'll save energy if we stick together
taking you over a shy casnova
we'll save energy if we stick together

burning the candel is all i can handle
we'll save energy if we stick together
taking you over a shy casnova
we'll save energy if we stick together now
stick together now
