(Scott Meeks/Jason Theiste)

Are you worried, are you having second thoughts

Is your head spinning, is stomach tied in knots

Just think of us and everything will work out fine

Just let your heart lead your mind

When the heart takes on the mind, the heart will win
every time

'Cause there's nothing you can do, it's not up to me or
you

So don't even try - don't ask yourself why

Let your heart lead your mind

Don't plan the future, things will be what they'll be

All I need is you and all you need is me

Our love is strong - it'll stand the test of time

Just let your heart lead your mind

When the heart takes on the mind, the heart will win
every time

'Cause there's nothing you can do, it's not up to me or
you

So don't even try - don't ask yourself why

Let your heart lead your mind

Don't listen to your head

Hear your heart instead

When the heart takes on the mind, the heart will win
every time

'Cause there's nothing you can do, it's not up to me or
you

So don't even try - don't ask yourself why

Let your heart lead your mind

When the heart takes on the mind, the heart will win
every time

'Cause there's nothing you can do, it's not up to me or
you

So don't even try - don't ask yourself why

Let your heart lead your mind

Your heart lead your mind

Your heart lead your mind

Your heart lead your mind
