(Scott Meeks)

Sometimes we're afraid to tell the ones we love how we
feel

We hide our hearts and throw away the key
To tell someone you love them is such an easy thing to
say

But to guard my heart, I waited until today
The love of a lifetime is what I offer you
Someone who will be there in the tough times to see
you through

So close your eyes and take my hand and please don't
be afraid, oh no

And follow me to a love of a lifetime
All these years we've been together our love has
stayed strong

I can look into your eyes and see when something's
wrong

I know my job's not doing well and I still don't get much
pay

It's in times like these we grow stronger every day
The love of a lifetime is what I offer you
Someone who will be there in the tough times to see
you through

So close your eyes and take my hand and please don't
be afraid, oh no

And follow me to a love of a lifetime

You ask how long I'll love you

Is forever long enough

You ask me if I need you

I need you too much

The love of a lifetime is what I offer you

Someone who will be there in the tough times to see
you through

So close your eyes and take my hand and please don't
be afraid, oh no

And follow me to a love

Yes follow me to a love

Follow me to a love

Follow me to a love of a life time

Hmmm, mmmm
