i wanna be somewhere where i know that i'm gonna do something  
i wanna get somewhere and i know that i've gotta decide  
if i can leave somewhere where i know i might never do nothing  
i've never been so scared and i know i might run out of time  
I wanna be somewhere where i know that i'm gonna do something  
(I wanna be somewhere where i know that i'm gonna do something)  
i wanna get somewhere and i know that i've gotta decide  
(i wanna get somewhere and i know that i've gotta decide)  
if i can leave somewhere where i know i might never do nothing  
(i don't wanna jinx it and i know that i might not make it but i've gotta believe that i'm gonna be fine)  
i've never been so scared and i know i might run out of time  
I wanna be somewhere where i know that i'm gonna do something  
i wanna get somewhere and i know that i've gotta decide  
if i can leave somewhere where i know i might never do nothing  
i've never been so scared and i know i might run out of time  
i might run out of time  
(don't wanna hope cause i don't wanna jinx it)  
i might run out of time  
(and i know that i might not make it)  
i might run out of time  
(but i've gotta believe that i'm gonna be fine)  
i might run out of time
