You're on a roll cuz you're rockin the loud part
You're on a roll cuz you rock it hard
You're on a roll cuz you're rockin the fast part
You're on a roll kids all like it loud
But then someone comes in above you
They say they think you'll fit the part
And that there might be some that love you
And it's because you can rock it hard
That's when they'll go "now you rock it slow!"
So now you know no more rockin the loud part
You're done with the fast, always rock it slow
But maybe once they won't notice the hard part
Just sneak it in, kids all like it loud
But then someone comes in above you
They say you'll do just what we want
We know there might be some that love you
And yeah we know you can rock it hard
That's when they'll go "now you rock it slow!"
They're buying up the radio you know it's got to go
That's when they'll go "now you rock its slow"
