THE STILLS - Animals Insects

Album: Logic Will Break Your Heart (2003)

I stumble out of a night club thinking,  
"Animals and insects don't do drugs."  
I think I'll go out and act like I'm celibate  
Jingle bells and a Christmas choir

I softly kick a dog in the teeth  
But he can't beat me down  
Blood streaming from the palms of my feet  
I'll bring the heavens down screaming with me

Oh my God... [4x]

I'll shake my cutie pie fist at a waitress  
When I'm sick of the way that I've been  
I think I'll go out and act like I'm celibate  
Throw grenades at a Christmas choir

Oh my God... [12x]
