"Changes Are No Good"

I wear the smile, I wear the laugh
I'm in the backstage changing hats
I am a weekday on weekends
I hate my best friends

Spoke and choked,
I burnt my notes
This heart drones as
I try and act adult
But like a walkman falls to pieces
All parts no heart

See me change, changes are no good... [2x]
See me change

All the world's deranged and I'm left crouched, people
delayed are in a rush
I want a world but I might throw up. Will it ruin my make-
up?

See me change, changes are no good... [2x]
See me change...

See me change, changes are no good
See things change, changes are no good
See me change...
