Lie on the floor of the runway, baby  
Wait for the ride; we'll have a comfortable fly

And don't be afraid, to be afraid here with me  
And plunge, little worm, into the worm-hole with me

Let's roll... [2x]

South to the sea, I got a sailboat for free  
Yes, little worm, we'll sail the sewage out to sea

And don't be afraid, of the roaming alligators  
And save the heart attacks for later

Let's roll... [4x]

North, to the fringe, I know a bar there that's in  
Out of the way, in a Hades kind of way  
But I'm not afraid, as long as you're here with me

Let's roll... [8x]
