So long driftig through the part of war  
To live a sacrificing life, to grab a little more  
He's the easy one  
He's the betrayer  
He's the liar in anyone

It gnaws at my soul  
Leaving scars behind that draw till I'm dead  
Till I'm the easy one  
Till I'm the betrayer  
Till I'm the liar in anyone

I don't know what it means  
I don't know what it means  
I don't know what it means to me

Where is the chosen one?  
The Jesus Christ who presents us a new dawn?  
But still there's the easy one  
Still there's the betrayer  
There's the liar in anyone

More, always more  
The adjustment is more  
We are embroiding  
We are dying  
But noone sees his pain  
Why can't we realize the world without

The envy?

I don't know what it means  
I don't know what it means  
I don't know what it means to me
