Make your money
Don't stop working
You have your future
Financial planning
Without purpose
Like the robots
I have purpose
I won't settle

It's who you love
It's where you've been
It's who you saw
And touch within
It's how you die
And the way you give
Some may love
But who really lives?

So make your money
If it keeps you happy
There is no future
When you're just pretty
So if I walk out
And if I walk out
It's c'est la vie
I'll be history
