

## Sheila Divine "Countrymen"

Visit "[Countrymen](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Where have my countrymen gone?  
All of your patriots are just millionaires  
And look what they've done  
They just puncture you and destroy the heir

All of our countrymen gone  
They just picked up and left when the west was won  
And where are they now?  
Well a secret assassins have taken some

One good thing about the feeling  
Just operate and keep me still

Will my warm heart ever fail?  
Will my warm heart ever fail?

I am bore from two sides,

With an eagerness of the newly free  
Are you dead than alive?  
When your country's motto's "don't tread on  
me"

One good thing about the feeling  
Just operate and keep me still

Will my warm heart ever fail?  
Will my warm heart ever fail?

One good thing about the feeling  
Just operate and keep me still

Will my warm heart ever fail?  
Will my warm heart ever fail? (x2)

Will it fail (x3)

Will my warm heart ever fail?
