Knee deep into the wet earth - Walking the path of
sorrow
Forward through the night - With shields and axes by
side
Wearing mighty amulets - Their armours shines in
moonlight
Impaled heads on sticks - Gazeing as a sign of triumph
Over mountains they walk - Breathing white air at the
top
Wandering in the lowlands - Suffering by almighty sun
Crystal lakes lay beside - By their water the light
reflects
The flowers in the deepest lake - lurking throughout
dimensions

Visualizing the journeys end - Unveiling the last secrets
Oath of wisdom opens wide - Light breaks out from
there
Finally they have found the last - artifact of elder times
As they stay beside the shrine - voices told them what
to do
Unite the swords in wrath - To fullfill their mission
Thunder crash throught the clouds - all life ends and
born a new
They look into the blackened sky - Waiting for the last
order
To walk towards the stormgates - Into a new godless
aeon

HeÃ's kneeling down - open his hands with grief
Awaiting the night - as the rain touches his face
Lightning splits the sky - earth light turned to gray
again
Reinforced by eternal knowledge - The last triumph
shall rise

In the eyes of a dreamer - united we are one
Stay against the light - through wisdom weÃ'll prevail
And as the last gate opens - We see for what we stand
The last warriors of night - with bottles of ale by side

You know its not a vision of yours

The last gate is the gate to hell
