"Smile"

Things aren't going your way
And it's written all over your face
And you're not even looking for the better days
Cause you think that there's nothing left
No

But you can feel the sun
You can hear the wind blow
It's right outside of your window
There's so many reasons for you to be happy
Its all up to you
So don't be stupid
It's always worse in your head
so just take a second

To breathe
Take in what you see
Who knows what you'll find
In this beautiful life
That gives you a reason to smile
You smile
I smile
We smile

You wake up to another day
Another shot at making your vibe change
And if you didn't smile yesterday
Here's a chance
here's your moment
yeah

You can feel the sun
You can hear the wind blow
It's right outside of your window
There's so many reasons for you to be happy
Its all up to you
So don't be stupid
It's always worse in your head
so just take a second

To breathe

Take in what you see
Who knows what you'll find
In this beautiful life
That gives you a reason to smile
You smile
I smile
We smile

When you're down (Smile)
Up (Smile)
When you're out (Smile)
When you're on top (smile)
Low (smile)
Whenever just (smile)

Breathe
Take in what you see
Who knows what you'll find
In this beautiful life
That gives you a reason to smile
You smile
I smile
We smile

Breathe
(You can feel the sun, you can hear the wind blow)
Take in what you see
(You can feel the sun, you can hear the wind blow)
Who knows what you'll find
(You can feel the sun, you can hear the wind blow)
In this beautiful life
(You can feel the sun, you can hear the wind blow)
That gives you a reason to
Smile
