Verse 1:

Light and darkness running together
Rain and sun hold hands in the moonlight
You and I consider the romance
All is peaceful, all is peaceful

Chorus:

I'm ready to love
Ready to give myself to you
I've started to fall apart
Its you I've waited for
I'm ready to love

Verse 2:

Fire's burning over the ocean
Darkened skies make way for the sunlight
You and I can dream of tomorrow
All is peaceful, all is peaceful

Bridge:

If the sun did never shine again
And clouds did never cry
If the stars never turned on again
We would be alright
We would be just fine

Chorus:

I'm ready to love
Ready to give myself to you
I've started to fall apart
It's you I've waited for

I'm ready to love
Ready to loose myself in you
I've started to fall apart
It's you I've waited for - I'm ready to love
