If this time is the last time

(Album:Sandra Pires)

Here we are
at the last turn in the road
the two of us just know
there's a heart that's breakin
but that's okay
coz you never said you'd stay
I knew I'd face this day
you'd have to say goodbye

I won't plead and I won't cry
I won't bleed and I won't die
I'll just hold my head up high
while I watch you walk away

If this time is the last time
if this night is our last night
then let's not waste a heartbeat
let's hold this moment tight
if this time is the last time
then hold me like the first time
baby that will be enough
if this time is the last time we make love

we're letting go
of a love that's come and gone
somehow life goes on
we'll get past the sorrow
but when you weep
don't look back on me too long
coz I'm trying to be strong
I can't let you see my pain

I won't plead, I won't cry
I won't bleed, I will not die
I won't ask the reason why
as you turn and walk away

If this time is the last time

if this night is our last night
then let's not waste a heartbeat
let's hold this moment tight
if this time is the last time
hold me like the first time
baby that will be enough
if this time is the last time we make love

some other day, some other time
when you speak my name, will you be kind
I'll hold on to your memory
cause you'll always be a part of me

If this time is the last time
if this night is our last night
then let's not waste a heartbeat
let's hold this moment tight
if this time is the last time
hold me like the first time
baby that will be enough
if this time is the last time we make love

If this time is the last time
if this night is our last night
then let's not waste a heartbeat
let's hold this moment tight
if this time is the last time
hold me like the first time
baby that will be enough
if this time is the last time we make love
