"Forever"

When the night was over

I looked into her eyes

I told her to come closer

She turned around and cried

I'll leave you if you want me to

Forever

Forever

Repeat

She's the best lover

In my holy life

I will never leave her

Till the day she dies

Everytime I see her sweet sweet lips I can't wait 'till the
night

Stay by my side now

And never ever say

I'll leave you if you want me to

Forever

Forever
